Potential Tariff Adjustments for Aligned Partners

Annex

Note: All products that are properly classified in the provisions of the Harmonized Tariff Schedule of the United States (HTSUS) that are listed in this Annex are potentially eligible to be exempted from duties imposed by Executive Order 14257, as amended, as determined by the Secretary of Commerce and the United States Trade Representative for each trading partner that has concluded an agreement on reciprocal trade, based on the scope and nature of the trading partner's commitments under that agreement. The product descriptions that are contained in this Annex are provided for informational purposes only, do not supersede the text of the HTSUS, and are not intended to delimit in any way the scope of the action, except as specified below. Only items that are properly classified in the listed provisions of the HTSUS are potentially eligible to be exempted from the tariff action imposed by Executive Order 14257, as amended. Any questions regarding the scope of particular HTSUS provisions should be referred to U.S. Customs and Border Protection. In the product descriptions, the abbreviation "nesoi" means "not elsewhere specified or included".

Notes on certain HTSUS provisions for which only a portion of the provision is covered in this Annex, as provided in the "Scope Limitations" column:

- A subheading marked with "Ex" is defined and limited by the product description.
- A subheading marked with "Aircraft" includes only articles of civil aircraft (all aircraft other than military aircraft); their engines, parts, and components; their other parts, components, and subassemblies; and ground flight simulators and their parts and components, that otherwise meet the criteria of General Note 6 of HTSUS, regardless of whether a product is entered under a provision for which the rate of duty "Free (C)" appears in the "Special" sub-column.
- A subheading marked with "Pharma" includes only non-patented articles for use in pharmaceutical applications.
